

UV Fluorescence Kit

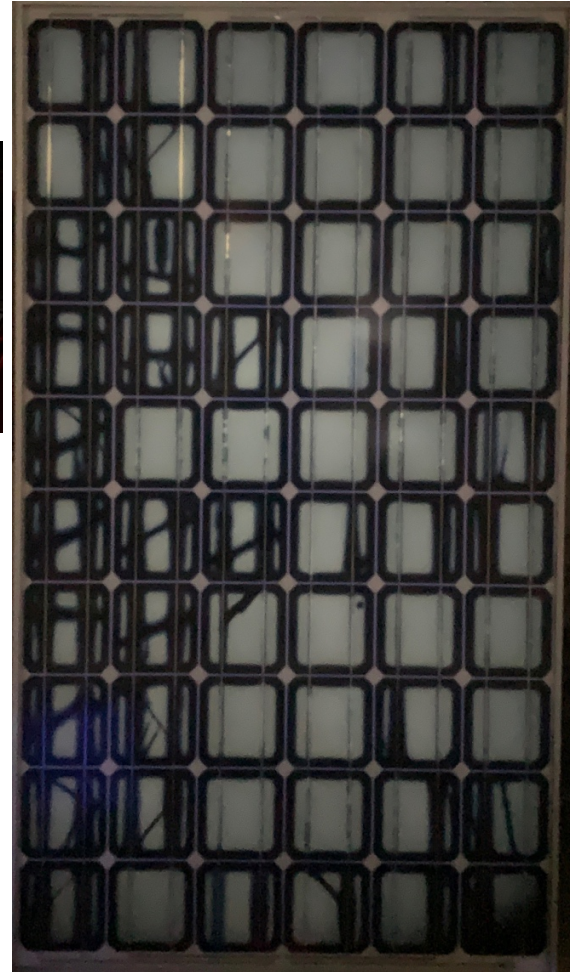

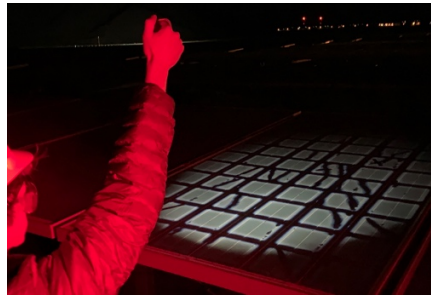

Budget-Priced UVF Kit

UV Flashlight with visible light filtering

2 UV Protection Goggles

4 Batteries

Battery Charger

Quickly see cell cracks in fielded modules at night

- No need to disconnect module cables

Follow up later with more detailed EL testing

- Maximize EL throughput by just testing modules with problems

Width of crack signature related to age of crack

- Compare to EL to determine when cracks occurred

See other encapsulant-sensitive problems

- Hot spots
- EVA yellowing
