

TravEL-Spot

Electroluminescence imaging of modules in the field

- Cracks in silicon solar cells**
- Wire soldering problems**
- Wire breakage**
- Potential Induced Degradation**
- Thin-Film Shunting**

Got Pixels?

24 Megapixels
modified camera
Better images than a
scientific camera at a
fraction of the cost

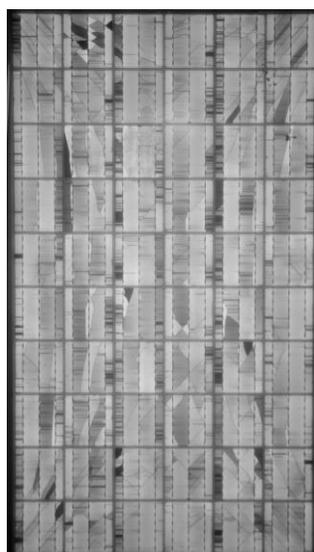

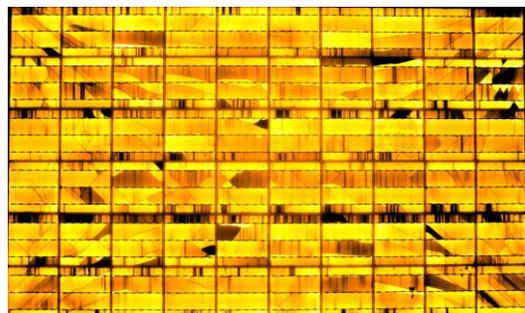

Components

- Camera with 1 or 2 Lenses, and Filters
- Focusing aids
- Power supply
- Tablet computer with IMPEL Software for data acquisition & post processing
- Tall Tripod
- Hard carrying case for travel

Customers Include

- System installers
- System Quality Assurance Testers
- Module R&D and QC Groups
- O&M Groups
